

1995

V.P.Maslov Publications List since 1995

1995

1. . . . , . . . , . . . , 13 .21, 1-13, 1995.
2. V.P.Maslov, O.Yu.Shvedov, Geometric quantization in Fock space. *Advances in Soviet Math.*, Berezin's memory volume, 1995,
3. . . . , . . . ,58, 6, 1995
4. . . . , . . . , .58, N6, 1995
5. . . . , . . . , .1, 133-137. . . . , 1995, .57, .1, 133-137. On large deviations in the many-body problem. *Math. notes*, 1995, v. 57, n. 1, pp.133-137.
6. . . . , . . . , . . . , .31, N2, 1995, 312-326
7. V.P.Maslov, Quasi-particles associated with Lagrangian manifolds corresponding to classical self-consistent fields. I, *RJMP*, .2, N4, 527-534, 1995
8. V.P.Maslov, Quasi-particles associated with Lagrangian manifolds corresponding to classical self-consistent fields. II, *RJMP*, .3, N1, 123-132, 1995
9. Quasi-Particles Associated with Lagrangian Manifolds Corresponding to Semiclassical Self-Consistent Fields. III. // *Russian J. Math. Phys.*, 1995, v.3, N2, 271-276. (in English).
10. Quasi-Particles Associated with Lagrangian Manifolds Corresponding to Semiclassical Self-Consistent Fields. IV. // *Russian J. Math. Phys.*, 1995, v.3, N3, 401-406. (in English).
11. V.P.Maslov, O.Yu. Shvedov, Asymptotic solutions to the Wigner equation for systems of a large number of particles. *RJMP*, .3, N1, 65-80, 1995
12. . . . , . . . , .340, N1, 21-25, 1995. n integral equation with jumping nonlinearity corresponding to nuclear

23. . . , . . . , . . . , p. 58, .6, 936-939, 1995.
On a problem of turbulent dynamo. Math. notes, 1995, v. 58, n.6, pp. 936-939 (with G.Omel'yanov)
24. . . , . . . , . . . , p p p
. . . , .29, n.4, 80-84, 1995.
Sufficient conditions of high-temperature superconductivity. Func.Analysis,
1995, v.29, n.4 pp.286-288 (in Russian)

1996

1. V.P.Maslov, Quasi-Particles Associated with Lagrangian Manifolds and (in the Ergodic Case) with Constant Energy Manifolds Corresponding to Semiclassical Self-Consistent Fields. V.// Russian J. Math. Phys., 1996, v.3, N4, 529-534 (in English).
2. V.P.Maslov, Quasi-Particles Associated with Lagrangian Manifolds Corresponding to Semiclassical Self-Consistent Fields. V. // Russian J. Math. Phys., 1996, v.4, N 1, 117-122 (in English).
3. V.P.Maslov, Quasi-Particles Associated with Isoenergetic Manifolds Corresponding to Classical Self-Consistent Fields. VII. // Russian J. Math. Phys., 1996, v.4, N2, 266-270. (in English).
4. V.P.Maslov, Quasi-Particles Associated with Isoenergetic Manifolds Corresponding to Classical Self-Consistent Fields. VIII. Russian J. Math. Phys., 1996, v.4, N4, 6p. (in English).
5. V.P.Maslov, Quasi-Particles Associated with Isoenergetic Manifolds Corresponding to Classical Self-Consistent Fields. IX. Russian J. Math. Phys., 1996, vol.4, n.4 (in English)
6. V.P.Maslov, Semiclassical Approximation for an Ergodic Classical Hamiltonian Flow. The Derivation of the Semiclassical Chaos Equations. The Role of the Self-Consistent Potential. Russian J. Math. Phys., 1996, v.4, N3, 377-391 (in English).
7. V.P.Maslov, A fast dynamo theorem. Russian J. Math. Phys., 1996, v.4, N3, 361-376. (in English)
8. V.P.Maslov. A Fast Dynamo Theorem. Math. Preprint Series, University of Nottingham, 1996, N9, 22p. (in English).
9. . . . , . . . , N N -> . , 1996, .348, N2, 169-172. Spectrum of N-Bozons system for N -> . Doklady AN, 1996, v.348, N2, pp.169-177 (with V.V.Kucherenko) (in Russian)
10. . . . , . . . , 350, N2, c.162-165, 1996.

11. . . , . . ,
349, N4, . 455-459, 1996.
Asymptotics for Solutions of Equations with Operator-valued Symbol in
Quantum Theory of Field. Doklady AN, 1996, v. 349, N4, pp. 455-459. (with O.Shvedov)
(in Russian)

13. . . , . . , p
p p p ,
p p . . , . 60, . 5, 692-707, 1996.
/Some Identities for the Integro-Differential Equations Describing
Quasiparticles on an Isoenergetic Surface, Math. Notes, Vol. 60, No 5, 1996
(with A. Ruuge)

15. , , : p
p p , .51, .6, .209-210, 1996.
Idempotent mathematics: the correspondent principle and its applications to computing.
Russian Math. Surveys, 1996, v.51, n.6, pp.1210-1211 (with G.Litvinov)

1. V.P.Maslov, V.N.Kolokoltsov , Idempotent analysis and its applications. Kluwer Academic Publishers. V.401, 1997, 318 pp.
2. V.P.Maslov, V.Danilov, K.Volosov, Mathematical Modelling of Heat and Mass Transfer Processes. Kluwer academic publishers, V.348, 1995, 316 pp.
3. V.P.Maslov, Quasi-Particles Associated with Isoenergetic Manifolds Corresponding to Classical Self-Consistent Fields. X. // Russian J. Math. Phys., vol.5, n.2, 1997.
4. V.P.Maslov, Quasi-Particles Associated with Isoenergetic Manifolds Corresponding to Classical Self-Consistent Fields. XI. // Russian J. Math. Phys., vol.5, n.3. p.405-410, 1997.

5. . . . , . . . , .61, .1, .69-90, 1997.
Normal forms for quadratic Boze operators. Math. notes, 1997, v.61, n.1, pp.69-90 1997 (with B.Kucherenko).
6. . . . , .4, .61, .627-629, 1997.
On a new method of secondary quantization of fermions. Math. notes, 1997, v.61, n.4, pp. 627-629, 1997.
7. . . . , . . . , .61, .5. .790-792 , 1997.
On number of particles in condensate of weakly ideal Boze gaz. Math. notes, v.61, n.5. pp.790-792 (with O.Shvedov).
8. . . . , . . . , .61, .6, .835-854, 1997.
On a spectrum of finite-dimensional quadratic Boze operators. Math. notes, v. 61, n.6, pp. 835-854, 1997 (with B.Kucherenko).
9. . . . , .62, .4, .633-634, 1997.
On a new variation principle for fermions. Math. notes, v.62, n.4, pp.633-634. 1997.
10. . . . , .62, .5, .796-797, 1997.
On basic elements in idempotent subspaces. Math. notes, 1997, v.62, n.5, pp.796-797
11. . . . , . . . , .62, .6, .940-941, 1997.
On a symmetrical representation of the equation for quantum chaos. Math. notes, 1997, v.62, n.6, pp. 940-941 (with A.Ruuge)
12. . . . ,
586.
Asymptotic solutions of Navier-Stocks equations, describing laminar traces, streams and tongues in incompressible fluid. Preprint 586. Institute for Problems in Mechanics, Russ.Ac. Scien., Moscow, 1997, 35p. (with A.Shafarevich) (in Russian)

1998

1. . . . , .63, .1, .145-146, 1998.
A Theorem on the Classical Limit as $\hbar \rightarrow 0$ for a System of N Interacting fermions. Math. notes, 1998, v.63, n1, pp.45-146
2. . . . , . . . , 1998, .63, .1, .147-150, 1998

Axioms of Quantum Field Theory with Ultraviolet Truncation. Math. notes, 1998, v.63, n.1, pp.147-150 (with O.Shvedov).

3. . . . , 1998, .63, .4, .635-637, 1998

On a phase transition for classical fermions. Math. notes, 1998, v.63, n.4, pp.635-637

4. . . . , , .63, .5, .792-795, 1998

On a phase transition for classical bozons, fermions and volume classical particles. Math. notes, 1998, v.63, n.5, pp.792-795.

5. . . . , ,

, 32, 2, . 89-91, 1998

On one class of Langrangian manifolds, satisfying to variation problems, and problems of the control theory and thermodynamics. Func. Analysis, 32, 8 1998.

6. . . . , p p , .63, .6, . 951-952, 1998

Hypothesis of two-component Landau model for ordinary fluid and phase transition to turbulent flow. Math. notes, 1998, v.63, n.6., pp. 951-952.

7. . . . , . // , .64, .3, . 470-473, 1998

On phase transition for classical fermions. Math. notes, 1998, v.64, n.3., pp. 470-473.

8. . . . , , .64, .4, .315-317, 1998

Interaction of classical fermions with bozons. Math. notes, 1998, v.64, n.4, pp.315-317.

9. . . . , , .64, .5, . 791-792, 1998

Commutative probability theory, satisfying to parastatistics. Math. notes, 1998, v.64, n.5, pp. 791-792.

10. . . . , , , 1998, .363, n.3, .298-300, 1998

Linear functionals on idempotent spaces. Algebraic approach. Dokl. Acad. of Science, Math., 1998, v.58, n.3, pp.383-391 (with G.Litvinov and G.Shpiz).

11. . . . , , , .64, .1, . 73-94 , 1998

Logarithmic asymptotics of solution of the large diviation problem for the Boltsman equation with small transfer of momentum. Math. notes, 1998, v.64, n.1 (with A.Chebotarev).

12. . . . , . . . , // , 1998, .360, N2, 1998
 Deviations of temperature equilibrium state for classical bozons in classical statistical physics. Dokl. Acad. of Science, Math., 1998, v.360, n.2 (with G. Koval).
13. V.P.Maslov, Deterministic Quantum Chaos for Systems of Bosons and Fermions. RJMP, v.5, n.4, pp. 473-488, 1998.
14. V.P.Maslov, Axiomatics of Thermodynamics and Quantum Chaos./Generalized Functions, Operator Theory and Dynamical Systems. (Research Notes in Mathematics Series) Ed. I.Antoniou and G.Lumer, Chapman and Hall/CRC, 1998.
15. V.P.Maslov, G.L.Litvinov, Correspondence Principle for Idempotent Calculus and Some Computer Applications. Preprint IHES, Bures-sur-Yvette, 1995; the same in: Idempotency/J.Gunawardena (editor), Cambridge Univ. Press, Cambridge, 1998 (ISBN 0-521-55344-X), pp. 420-443 (with G.Litvinov).
16. V.P.Maslov, G.Litvinov and A.N.Sobolevskii, Idempotent Mathematics and Interval Analysis. The Erwin Schroedinger International Institute for Math. Physics, Vienna, 1998; e-print, 1998: <http://www.esi.ac.at>
17. . . . , . . . , . . . , . . . " " , 1998
 Idempotent Funcional Analysis. An Algebraic Approach. Preprint. International Sophus Lie Centre. Mocsow, 1998 (with G.Litvinov and G.Shpiz).
18. V.P.Maslov, G.Litvinov and A.Rodionov, Unifying Approach to Software and Hardware Design for Scientific Calculations. International Sophus Lie Centre, 1998, 18 p.; LANL e-print quant-ph/9904024, 1999 (<http://xxx.lanl.gov>).
19. . . . , . . . , . . . , . . . , 1998
 Nondigital implementation of the arithmetic of real numbers by means of quantum computer media. Preprint. International Sophus Lie Centre, Moscow, 1998, LANL, e-print quant-ph/9904025, 1999 (with G.Litvinov and G.Shpiz).
20. . . . , . . . , . . . , 1998, 189:6, 85–116.

1999

1. . . . , . . . , . . . , . . . , 1999, .65, 4, 572-585 (1999)
 Tenser products of idempotent semimodules. An Algebraic approach. Math. notes, 1999, v.65, n 4 (with G.Litvinov and G.Shpiz)

2. . . . , . . . , . . . , .365, n.6, 745-749 (1999)
Markov evolution equations in quotient probability spaces. Dokl. Acad. Of Science, Math., 1999, v.365, n.6 (with A.M.Chebotarev)
3. . . . , . . . , . . . - . . . , . . . , .44, n.2, 373-383 (1999)
Equations of Kolmogorov-Feller type in quotient probability space. Probability Theory and applications, v.44, n.2 (with A.M.Chebotarev)
4. . . . , . . . , . . . , . . . , 60- . . . , . . . , 263-281
1999. Evolution equations in quotient probability spaces. In: TMS Conference Proceedings, Proceedings of the International Conference on Infinite Dimensional Stochastic Analysis and Quantum Physics, Leipzig, January 1999, pp.18-22 (with A.M.Chebotarev)
5. . . . , . . . , . . . , .65, .1, 84 -106 (1999)
Asymptotics of the matrix of density for the system of large number of identical particles. Math. notes, 1999, v.65, n.1, pp. 84-106 (with O.Shvedov)
6. . . . , . . . , . . . , .369, n.2 (1999)
Exclusion of bozons in quasiclassical approximation for secondary quantized equations with fixed number of fermions. Dokl. Acad. of Science, Math., 1999, v.369, n.2
7. . . . , . . . , . . . , .369, n.3 (1999)
On an averaging method for N interacting fermions as $N \rightarrow \infty$. Dokl. Acad. of Science, Math., 1999, v.369, n.3
8. . . . , . . . , .369, n.4 (1999)
Cuper pairs and averaging of operators in non-ideal Boze gaz. Dokl. Acad. of Science, Math., 1999, v.369, n.4
9. . . . , . . . , .369, n.5, 1-4 (1999)
The Tunnel asymptotics in non-ideal Fermi gaz. Dokl. Acad. of Science, Math., 1999, v.369, n.5
10. . . . , . . . , .66, .10 (1999)
On superfluidity of liquid helium. Math. notes, 1999, v.66, n.10
11. . . . , . . . , .66, .11 (1999)
On high-temperature superconductivity. Math. notes, 1999, v.66, n.11

12. . . . , , 1999 .66, .11 (. . . .)
 Lax pair for equations of characteristics of averaged many-particle operators. Math. notes, 1999 v.66, n.11 (with A.Ruuge)

13. . . . , N N .
 , .66, .6, 849-866 (1999)
 Asymptotics as $N \rightarrow \infty$ for N classical fermions and bozons. Math. notes, 1999, v.66, n. 6

14. . . . , , .121, 3, 492 (1999)
 The problem of phase transitions in superfluid and ordinary liquid. Theor. and math. phys., 1999, 121, 3,

15. . . . , .33, n.4, 50-61 (1999)
 On an averaging method for the quantum many-body problem. Func. analysis, 1999, 33, n.4

16. V.P.Maslov, Asymptotics with Respect to a Large Number of Fermions (or Bosons) and Their Strong Interaction with Phonons and a Quantized Field. RJMP, Vol.6, No.4, 409-425 (1999)

17. V.P.Maslov, O.Shvedov, Large-N Expansion as a Semiclassical Approximation to the Third Quantized Theory. Phys. Rev., 1999, p.105012

2000

1. . . . , .// .125, 2. . 297-314 (2000).
 Averaging the operators for a large number of clusters: Phase transitions. TMF, 2000, 125 (2)

2. . . . , ,
 .125, 3. .453-470 (2000)

3. . . . ,
 , .34, .4. . 35-48 (2000)

4. . . . , 6. . 3-8 (2000)
 , .3, .

5. . . . ,
 , .55, .6, .145-146 (2000)

6. . . . ,
 , .68, 6, .945-947 (2000)
A New Representation of the Hamiltonian Operator for Bosons and Fermions
Quantization of Free Energy and Dependence of the Landau Criterion on
Temperature. Math. Notes, 2000, 68 (6)
7. V.P.Maslov, Quantum Electrodynamics for Many Fields. RJMP, v.7, n.4,
p. 488-490 (2000)
